“ I did not know Helen passed away. I am so sad I have called her many times since I saw her on her Birthday in April. I did have a feeling she just did not look like she felt so great. I loved, loved Helen. I met her 2001 and we have been friends ever since. She was there for me when my dad passed and my brother. Always stopping at my house to check in on me. I have missed her and always will. I have an autistic son that keeps asking me about her. (she always stops in on his birthday, he just turned 13 on July 26) . I will just keep telling him she is busy. God, will we miss her. Wondering what happened. What a wonderful wonderful lady she was. I wish I didn't look her name up. So so sad. Rosalie Rivera and family.
